2.2 Definition of a credit

In SLQF credits system, the student workload of a full time study programme is defined as 1500 notional learning hours per year. Notional learning hours include direct contact hours with teachers and trainers, time spent in self learning, preparation for assignments, carrying out assignments and assessments.

2.0 Levels of Qualifications in Sri Lanka

6. PROGRESSION PATHWAYS

One of the objectives of the SLQF is to show the pathways of obtaining different qualifications. The qualifications at different levels are identified considering the learning effort required to obtain that qualification and expected learning outcomes of the qualification holders. Vertical mobility upwards through the system is straight forward and lateral entry is also possible at certain levels. The possible routes of getting qualifications are shown in Fig. 1.

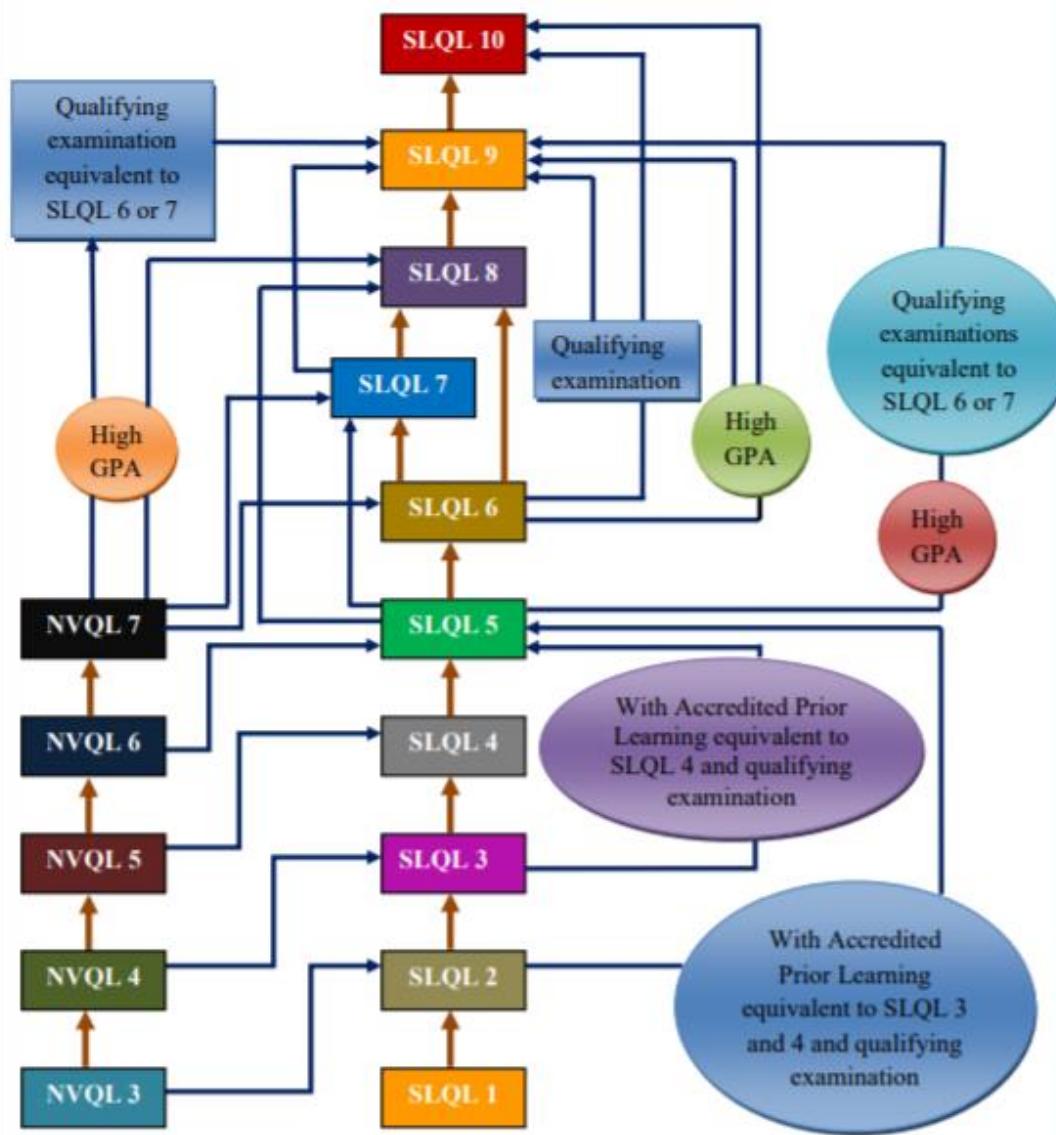

Figure 1: Possible progression pathways (NVQL = National Vocational Qualification Level; SLQL = Sri Lanka Qualifications Framework Level)

3.0 Government Universities in Sri Lanka & Free Degree Programs in them

According to University Grants Commission there are 14 Universities, 3 Campuses and 5 Institutes in which internal degree programs are offered free.

UNIVERSITIES

1. **UOC:** University of Colombo
2. **UOP:** University of Peradeniya
3. **USJP:** University of Sri Jayawardenapura
4. **UOK:** University of Kelaniya
5. **UOM:** University of Moratuwa

SLInspire

SLInspire is a collaborative project of IEEE Sri Lanka Section and SL2College. This event undeniably employs a sustainable approach in order to resolve some of the critical challenges faced by the Sri Lankan student community and the outcome of this event would address several Sustainable Development Goals (SDGs) in a significant way, meanwhile making the education system of the country effective and efficient. The tertiary educational system in Sri Lanka is established in such a way that getting into state (public) universities, which is the most sought-after choice is a luxury that less than 17% of all students facing the university entrance exam (Advanced Level exam) can achieve. Even this 17% is not fully aware of all the degree programs available and what awaits them after graduation in their respective fields. The other 83% has to search for alternative options for their career. The goal of SLInspire is to address this by raising awareness among high school students in the country.

IEEE Sri Lanka Section

IEEE is the world's largest professional association dedicated to advancing technological innovation and excellence for the benefit of humanity. IEEE and its members inspire a global community through its highly cited publications, conferences, technology standards, and professional and educational activities. IEEE is the trusted "voice" for engineering, computing and technology information around the globe.

IEEE SL Section has been established to foster technological innovation and excellence for the benefit of humanity and advancement of technical professionalism. IEEE Sri Lanka section was endorsed 12 years ago on 14th November 2003 under IEEE Region 10. Expanding membership ever since, the Section has now grown the number of members to over 2000 with an equal distribution of students and young professionals.

SL2College

SL2College is an educational nonprofit organization formed in 2005. The goal of SL2College is "to help Sri Lankan students with their higher education goals by providing information and guidance as necessary." SL2College provide a platform for people to share their own experiences so that Sri Lankan students who plan to pursue higher education can learn about the best local and foreign choices available to them, as well as receive guidance during the application process. At the same time, the organization is educating Sri Lankan students on the higher educational opportunities available within the country as well. SL2College has built a vast network of ambassadors in Sri Lankan universities in order to promote higher education and act as mentors to high school students interested in pursuing a higher education.
