It is with great pleasure that we present the third edition of the CAREER COMPASS HANDBOOK, which serves as a comprehensive resource for the student community in Sri Lanka. This publication, initiated by IEEE Sri Lanka Inspire, a project under the auspices of IEEE Young Professionals Sri Lanka in collaboration with SL2 College, reflects our commitment to improving the education system in Sri Lanka and equipping students with the necessary skills and knowledge to succeed in higher education and the workforce. This booklet contains the important information on the higher education opportunities in Sri Lanka.

We would like to express our sincere gratitude to everyone who has helped make this project possible by lending their time, knowledge, and resources. Your efforts to connect with the Sustainable Development Goals (SDGs) of the United Nations, create a community of professionals, educators, and students, and give them the resources and encouragement they need to achieve have all benefited greatly from your assistance. This CAREER COMPASS guide is evidence of our dedication to helping students succeed by empowering and supporting them as they navigate their academic path.

1. About Us

1.1 IEEE Young Professionals

IEEE Young Professionals Sri Lanka (IEEE YP SL) is a part of the global network of IEEE Young Professionals. Which consists with young professionals working in the technology field including junior academic staff of Universities and postgraduate students.

1.2 SL 2 College

SL2College is an educational - nonprofit organization formed in 2005. The goal of SL2College is 'to help Sri Lankan students with their higher education goals by providing information and guidance as necessary'. SL2College provides a platform for people to share their own experiences so that the students who plan to pursue higher education can learn about the best local and foreign educational opportunities available to them. SL2College has built a vast network of ambassadors in Sri Lankan Universities in order to promote higher education and act as mentors to high school students interested in pursuing higher education

1.3 IEEE Sri Lanka Inspire

1.3.1 Vision

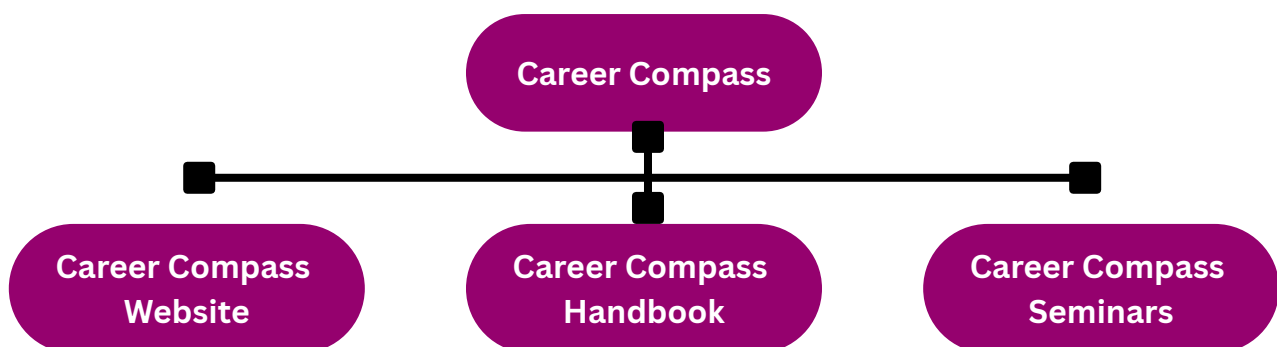

Recognize the diverse needs and encourage the Sri Lankan educational community to follow up on their career goals with the aim of disseminating knowledge through our accurate resources and endowing educated citizens in the country.

1.3.2 Mission

Physically delivering our resources more efficiently and maintaining essential data libraries on online platforms that can be used in the long run.

IEEE Sri Lanka Inspire (SLI) is a national project, initiated under IEEE Young Professionals Sri Lanka (IEEE YPSL), that focuses on providing advice, knowledge, guidance and motivation for pre- University students (school students) to make a proper selection when moving towards higher education to raise themselves to achieve a successful career path through research, advocacy and policy recommendations ensuring students are prepared for higher education and the workforce of the country. To achieve the vision, IEEE Sri Lanka Inspire aims to build a strong community among the students, especially the school students who are currently at their peak in school education; those engaging with O/Ls and A/Ls, students who have been selected to universities and all other educational strategies to ensure equal access to educational, professional and vocational opportunities for their journey of higher education, making the educational system of the country more effectively and efficiently

1.3.3 IEEE Sri Lanka Inspire Career Compass

Career Compass Database

To overcome this lack of awareness and knowledge among the student population, IEEE Sri Lanka Inspires built database consisting of more than 400+ Government - State University degree programs, 1200+ private-sector degree programs and tertiary education programs. The prepared data is made available to the students via the career compass website and the career compass handbook which will be extensively used in our seminars and webinar series and they will be freely available on our websites as well.

1.3.3.1 Career Compass Seminars

Islandwide mentoring sessions for students inspired by the career compass database, allows them to find the best matching career pathways to each individual and how to work on achieving their dreams and job opportunities.

They will be informed about the opportunities available so that they can arrive at a decision that best reflects their ambition. The seminar series will be conducted all around the country physically or virtually, covering all the rural provinces of the country where students are only aware of the

traditional career paths. Everyone will have equal access to high-quality education as a result of career compass sessions.

Additionally, they would overcome their inherited

financial circumstances not be denied opportunities because of poverty, enabling them to overcome their inherited financial circumstances.

1.3.3.2 Career Compass Handbook

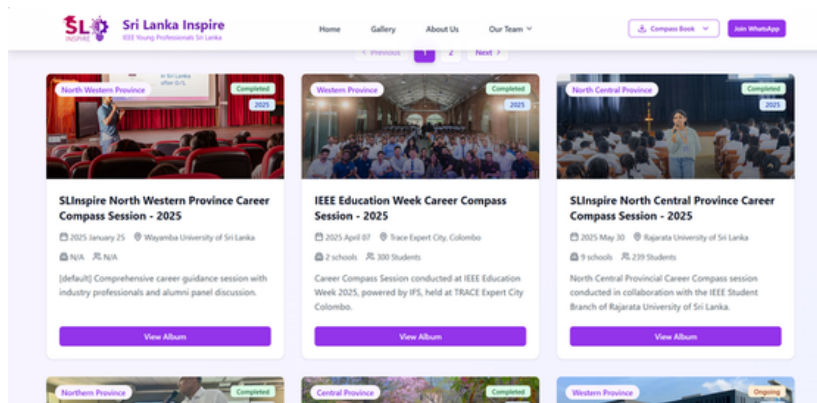

A comprehensive, easily readable, printed version of the career compass database which contains details about degree programs, in a booklet of recognized higher education programs available in Sri Lanka, which is being distributed during physical career guidance sessions. The career compass handbook also is available for free on the IEEE Sri Lanka Inspire website.

1.3.3.3 Career Compass Website

A user-friendly online platform that facilitates the discovery of recognized higher education programs in Sri Lanka. This is an interpretation of the career compass database.

The IEEE Sri Lanka Inspire website enables students to filter the degree programs and other higher educational options according to relevance to their qualifications, preferred study fields with institutional options either state Universities or private Universities.

3.3 Progression Pathways

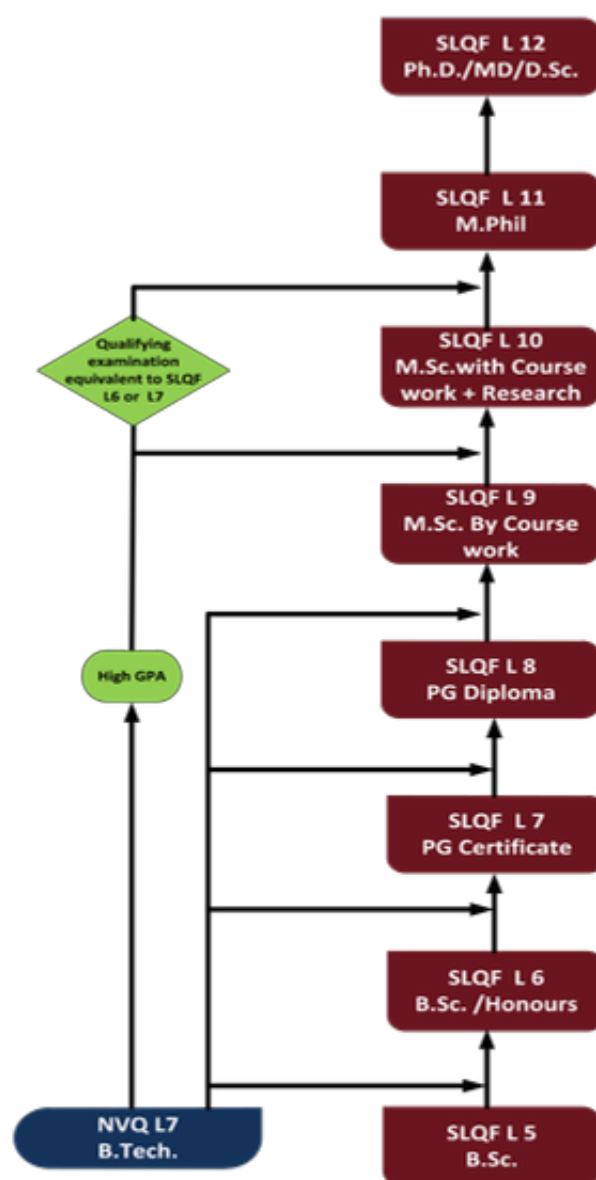

One of the objectives of the SLQF is to show the pathway of obtaining different qualifications. The qualifications at different levels are identified considering the learning effort required to obtain that qualification and expected learning outcomes of the qualification holder. Vertical mobility upwards through the system is straight forward and lateral entry is also possible at certain levels.

6.1 University Selection Guidance

STEP 1	COURSE Select the course you wish to study.
STEP 2	RECOGNITION AND CERTIFICATION Make sure that the relevant university is recognized and respected by Sri Lankan companies. (For example, to obtain postgraduate studies from a Sri Lankan university or to be recognized by the majority of Sri Lankan employers, the degree must be recognized by the University Grants Commission.) Note: For professional qualifications, check whether the qualification is recognized by the relevant institution, or ask a professional.
STEP 3	METHODOLOGY - First, find out the procedure required to enroll in the course. (e.g. A-level results, A-level results expecting or a foundation course) - The methodology will vary depending on the institution and course.
STEP 4	FINANCING - Consider the total cost of the course (including course fees, additional books and equipment). - Consider ways to raise money. - Self-support (through savings, full/part-time work) - Scholarships (from the institution/government or some organization) - Debt - Make sure it is a worthwhile investment. (Example: Possibility and benefits of getting a job after the course)
STEP 5	ACADEMICS AND EXTRACURRICULAR ACTIVITIES - Find out about the curriculum, lecturer panel, research and testing facilities (e.g. updated subject materials, laboratories and equipment) - Find out if there are any clubs, societies, and sports.
STEP 6	LIVING COSTS Also consider the cost of accommodation, transportation, food, and healthcare.
